**2. Citations and explanations:**

**CLAIMS 1-10**

None of the citations in the search report, individually or in combination, disclose the features of the claims. In particular, there is no disclosure of a sound generating device mounted external to the smoke detection chamber. Furthermore, none of the distinguishing features over prior art would either be obvious to a person skilled in the art or would merely amount to adding common general knowledge. The claims are, therefore, novel and inventive.
